The Route To Business and Personal Success

A facilitated process which gives you direction, strategy and motivation

About Navigator

Do you feel that you, your team or your company are constantly reacting to change? Are you just being swept along, dealing with things as they arise, rather than working towards your goals and aspirations?

This facilitated process uses an innovative and effective set of well-proven tools and techniques to help you define the future you **really** want. It then helps you to plan and navigate the path to that future.

It is suitable for: Business Owners, Teams, Directors and individuals.

We have developed and used this process with the Board of an LSC, Strategic teams within Local Government, Design companies, Engineering and Chemical companies, Telesales companies, a Nursing Agency, a Restaurant, and an NHS procurement team.

What do we get for our money?

The Facilitated Session

Is one day long and it is focused on your outcomes.

We help you analyse your existing business, define what you want that business to look like and help you to establish the goals you really want to achieve.

We then help you to develop a strategic plan which will ensure that you achieve these goals.

The Report

This contains all of the information from the session, your goals, your plan for the future and other key information from the session.

The Support

We provide ongoing follow up support as requested.

Key Benefits:

- Clarity of goals and a plan to achieve them
- Manage change in a constantly changing environment
- Develop and maintain the ideal organisational culture
- Increased motivation

“Working with Evolution we managed to agree our service objectives and design a plan to achieve them within the course of one day, a process which would normally have meant us holding several workshops. The process was creative, enjoyable and very effective and meant that the whole team could take an active part.”

Tracy Winsor, Head of Customer Services, West Devon Borough Council and South Hams District Council

“Ultimately, it plays with and unlocks your head in such a way that you leave the room enlivened, challenged and ready to take it on!”

Claire Easson Bassett, Director, Event Cornwall
